

~ Nevada Bureau of Mines & Geology ~

1. Great geology and mineral potential.
2. Numerous large producing mines, including high grade underground mines.
3. Regulatory system with recent examples of rapid permitting.
4. Great infrastructure (roads, drillers, hotels, supplies, assayers, etc.).
6. Favorable climate with year round access.
7. No malaria, black flies, moose, polar bears, desert death adders or crocodiles; **just elephants!**

‘ ... simply the best geology, geography and geo-politics in the world ... with elephant sized Carlin-type gold deposits! ’
