

# Nevada's target rich gold-trends

- Politically stable with superior logistics
- Several greater than 20M ounce gold deposits
- 250M+ ounces mined (5.5M in 2016)
- 80% of US and 10% of world production

**NuLegacy's  
Red Hill property**

**Major Deposits**

<span style="color: red;">●</span>	Eocene Carlin-Porphry
<span style="color: blue;">▲</span>	Miocene Epithermal
