

- **'Breakthrough' analysis confirms the structural and stratigraphic connectors between the Barrick's Goldrush/Fourmile Carlin gold systems and NuLegacy's Red Hill Carlin gold systems which are:**
  - **On trend**
  - **Strongly mineralized systems with the same stratigraphy**
  - **With the high-grade gold at the structural confluence of high-angle faults and low-angle thrust faults within Wenban5**
- **2019-2020 objectives - capitalize by:**
  - **Testing the connectors**
  - **Priority targets are the Fourmile 'Look-alike' and the Rift Anticline**
